

All of MFB's Power Distribution Boards for the Australian market are manufactured in compliance with Chief Electrical Inspector's Office of Victoria.  
(Refer to Website for certificate)

### HORIZONTAL POWER DISTRIBUTION BOARD 19"

The Horizontal Power Distribution Boards are available in 1RU 6 outlet, and 2RU 10 outlet, they are designed to mount across the 19" racking. And all boards are supplied fully wired, fitted with dual pole circuit breaker / neon switch, and a 2.5m lead.

Global outlets and sockets are also available, including US, UK and Singapore.

MFB can also supply solutions for custom power distribution, our sales and design team will work with you to provide a product that will perfectly suit your needs.
