

ALUMINIUM CHANNEL RACKS

This well designed self-supporting channel rack comes in sizes ranging from 27RU to 63RU.

It is fabricated entirely from heavy aluminium sections with a powder coat BS631 Light Grey finish.

Both sides of each channel are drilled and-tapped M6, conforming to IEC 60297 practice.

19" Channel racks provide a base footprint of 527 wide x 376 deep, while 23" Channel racks are 627 wide x 376 deep. Suitably distributed loads up to 600kg could be considered safe. Four mounting holes are provided in the base. Upper fixing may be advisable in some circumstances.

OPTIONS

- Accessories include Power Distribution Panels, Earth Bars, Lacing Rings and Cantilever Shelves etc. (Refer-Accessories Section)
- Available in ETSI format
